

WASCATOR FOM 71 CLS

As the world's largest single supplier of **Wascator FOM 71** standard reference washing machines, **John Godrich** now offer the latest **Wascator FOM 71 CLS** (Clarus control) fully programmable machine with memory cards for carrying out tests to BS EN 26330, ISO 6330. Standards and the requirements of **Marks and Spencer and other large retailers**. Special programmes can be written.

Features and benefits

- Meets IEC and ISO international standards.
- Suitable for testing washing effects of detergents and chemicals and for textile quality control.
- Suspended drum construction allows a high extraction force. No foundation required.
- Small space between outer/inner drum for efficient use of water and detergent.
- Dual water control of volume (weight) and level.
- Built in scale for precise volume control, accuracy:
 - volume control +/- 0.2 litre/bath
 - level control +/- 0.8 litre/bath
- Equipped with Clarus Control® – a fully programmable electronic timer.
- Frequency controlled motor system for flexibility in programming and precise speed.
- Test tap for water samples.
- Stainless steel drum assembly, front, side and top panel.

Fitted with 5.4 kilowatt heaters, the unit is electrically heated and operated from a three phase with neutral electrical supply.

A dump valve draining system means that the water is released straight out of the back of the machine to a suitably-sized drain.

The Wascator FOM 71 CLS is useful for textile and clothing manufacturers, retailers, dyers, detergent and chemical manufacturers, all of whom are concerned with stability testing. The machine is also used for testing flame-proof materials and hospital wash routines. For this purpose there is an accessory available – the 'Credit' Soap Dispenser which is designed to allow the machine to run on a continuous operation dispensing automatically soap powder as and when required. This means that the machine can run 24 hours unattended, and is useful where continuous repeat washes are needed.

The Wascator FOM 71 CLS is backed up by the John Godrich Service and UKAS Accredited Calibration Department and also their years of experience with the complete range of FOM 71 standard reference washing machines.

The manufacturer reserves the right to alter the specification at any time in the interest of offering a finer product. All goods are sold subject to the Manufacturer's Conditions of Sale.
